

Nilkamal Limited Environment Policy

We at Nilkamal are committed for Environment Protection in all our activities and products in order to leave this Earth better than today for the future generation.

We will achieve this by:

- Developing, manufacturing and marketing products for conservation of Natural Resources.
- Promoting pollution prevention.
- Complying fully with all the applicable environment regulation.
- Creating and enhancing awareness and commitment among all employees and sub-contractors towards environment pollution prevention.
- Conducting our operations in an environmentally sound manner by applying environmental management systems such as ISO 50001 at all our plants.
- Striving for continual improvement and effectiveness of the Environment Management System by setting challenging objectives, targets and continuously reviving and updating the same.

We will make our policy and commitment open and accessible to the Public.
