EXPLANATORY STATEMENT PURSUANT TO SECTION 102 OF THE COMPANIES ACT, 2013**Item No. 4**

The Board of Directors of the Company, on the recommendation of the Audit Committee, had approved the appointment of M/s. V.B.Modi & Associates, Cost Accountants (Firm Registration No. 004861) for the financial year 2022-2023 at a remuneration of ₹ 3.5 Lacs to conduct the audit of the Cost Records of the Company. In terms of provisions of Section 148(3) of the Companies Act, 2013 read with Rule 14(a)(ii) of the Companies (Audit and Auditors) Rules, 2014, the remuneration payable to the Cost Auditor along with the reimbursement of expenses incurred towards the audit is required to be ratified by the Members of the Company. Accordingly, consent of the Members is sought to ratify the remuneration payable to the Cost Auditors.

No Director, Key Managerial Personnel or their relatives, are interested or concerned in the resolution.

The Board recommends the Resolution as mentioned at Item No. 4 above for the approval of the members by way of Ordinary Resolution.

Item No. 5 & 6

In accordance with the provisions of Section 180(1)(c) of the Companies Act, 2013, the Members of the Company at the 28th Annual General Meeting held on September 6, 2014 had granted their approval by way of a special resolution to the Board of Directors of the Company for borrowing monies (apart from the temporary loans obtained from the Company's bankers in the ordinary course of business), from time to time, such sums of money as they may deem necessary for the purpose of the business of the Company, provided that the amount outstanding consequent to such monies borrowed by the Board of Directors on behalf of the Company does not exceed ₹ 600 crore, at any point of time. The members of the Company at the said AGM had also accorded their consent to the Board to create charge on properties or assets of the Company to secure borrowings under Section 180(1)(a) of the Companies Act, 2013.

Considering the future business growth of the Company and to meet the funding requirements for its business, the Board of Directors may need to borrow additional monies, from time to time, inter alia by way of loan/ financial assistance from various bank(s), financial institution(s) and/or other lender(s), issue of debentures/bonds or other debt instruments either in Rupee or any other currency, with or without security, whether in India or abroad, issue of commercial papers, external commercial borrowings and through acceptance inter corporate deposits on such terms and conditions as it may at its sole discretion deem fit and accordingly, increase the limit for creation of charge to secure the indebtedness pursuant to Section 180 (1)(a) of the Companies Act, 2013.

Accordingly, the approval of the Members is being sought by way of a Special Resolution authorising the Board of Directors to borrow monies within an overall enhanced limit of ₹ 1,500 Crore (Rupees One Thousand Five Hundred Crore only) or the aggregate of paid-up share capital of the Company, its free reserves and securities premium whichever is higher and for securing such borrowings, to create security by way of mortgage/ charge/ hypothecation on its assets and properties both present and future within the meaning of Section 180(1)(a) of the Companies Act, 2013 upto the overall borrowing limits pursuant to Section 180(1)(c) of the Companies Act, 2013.

The Board commends passing of the special resolutions as set out at Resolution Nos. 5 & 6 of this Notice, for the approval of the Members.

None of the Directors or Key Managerial Personnel of the Company or their relatives, other than to the extent of their shareholding in the Company, if any, are in any way, concerned or interested, financially or otherwise, in the matters as set out at Resolution Nos. 5 & 6 of this Notice.

MANAGEMENT DISCUSSION AND ANALYSIS

INDUSTRY STRUCTURE AND DEVELOPMENT OPPORTUNITIES, THREATS, RISKS, CONCERNS AND OUTLOOK:-

The Indian economy that was on a path of recovery post the first wave of Covid-19 pandemic, was struck by two more waves of Covid during the fiscal year 2021-22. The localised lockdowns derailed the economic growth and dampened consumer sentiments. However, the successful rollout of Covid vaccination programme, pick-up in government expenditure and better preparedness compared with the first wave restricted the economic damage to some extent.

Supply shocks caused by Russia's invasion of Ukraine lead to surge in crude oil and other commodity prices has further triggered a round of downward revisions in the GDP growth projections as well as surged in inflation across the globe. India is not an exception, it's retail price inflation surged to above 9 per cent in April 2022. This is the highest inflation India have witnessed in the last eight years. In a move to contain the raging inflation, the hike in interest rate is inevitable and which is expected to increase the cost of servicing loans for both consumers and producers and is likely to hurt the consumer and business sentiments going forward.

• Overview

Financial Year 2021-22 saw a good recovery of demand & Company did record consolidated sales of ₹ 2730.09 Crores, which is highest ever.

The Company is actively making innovative & unique products to stay ahead in both key Business of Material Handling & Furniture.

The year saw extremely high volatility of over 30% on the key Raw Material Prices in both Polypropylene & Polyethylene.

The Company continued to focus on increasing market penetration to ensure entire product range are available in deeper pockets of the Country. The Company is pursuing Franchisee Owned Franchisee Operated (FOFO) Retail stores under Nilkamal Furniture Ideas & @home brands.

The Company continued to build strong designing & manufacturing capability in production of Modular Furniture & Steel Furniture at Hosur which will establish its competitive position of high-cost import substitution in the Furniture Solutions for Home, Office, Educational Institutes, Hospitals & office furniture for private & Government sector.

The Company is embarking on another Green Field Project at Hosur for Modular & Steel Furniture along with backwardly integrating in manufacture of continuous foam for its Mattress & Sofa Business.

The Company is also witnessing increase in demand for branded Mattresses and other Sleep Solutions.

Similarly, the Company is focusing to deliver customizable Material Handling Solutions to its various new age Online & logistic Companies to gain large market share of this new segment.

The Company is in a sweet spot and upbeat about its position in regards to future growth prospect in the specialized Material Handling Solutions including Pallets, Racking & Shelving Business.

• Company's Right to Win

1. Brand:

Nilkamal is uniquely positioned and enjoys a strong recall with Consumers as a Furniture Brand & equally as No. 1 in B2B Business of Material Handling Solutions.

The Company has built a very strong "Affordable Premium" Brand backed by a strong Trust on the Product, Services & its robust Supply Chain in both the Key Businesses.

2. Manufacturing Locations

The Company has 11 manufacturing locations spread across 6 States & 2 Union Territories. The Company is pursuing Green Field Project at Hosur 3.

3. Distribution Strength

The Company has approximately 1100 channel partner and more than 20000 retail touch points for its furniture business.

Company has further increased its Brand awareness by putting up Large Format Franchisee Stores for the entire range of Furniture & Mattress under @home & Nilkamal Furniture Ideas Brands.

The material handling B2B business has direct deep connect with it's customer across industries through it's 250+ strong marketing force and offering a complete 'One stop Solution' for inter & intralogistics material handling requirements.

4. Installing a Robust Supply Chain

In the year under review, the Company has established Regional Warehouse (RWH) in East at its Barjora Factory & in West at Bhiwandi. It also inaugurated RWH at Hosur in April 2022 & Haryana RWH shall be operational during second Quarter 2022. These RWHs will give added capability to address it's online as well as offline Customer needs for any wide range of Furniture Products in the shortest possible time.

• **Sustainability**

All Plants of the Company have achieved Zero Waste Water discharge, since several years. Waste Water is treated and recycled for other uses. The Company has already installed Roof Top Solar Plant at Hosur, Silvassa, Noida, Barjora, Sinnar, Kharadpada and Vasona generating more than four million units in the last year.

The Hosur Factory has tied up for Wind Power and has consumed 60% of requirement through Wind Energy. The Company has won consecutively Four Gold Trophies from Bureau of Energy Efficiency, Government of India for Energy Management.

The Management is highly sensitized to make further investment & take initiatives to reduce its Carbon Footprint by use of recycled materials and consuming higher percentage of Renewable Energy.

Plastic Division

For the Financial Year 2021-22 the Plastic Business exhibited a volume & value growth of 12% & 33% respectively. It has achieved total turnover of ₹ 2299 Cr. as compared to ₹ 1731 Cr. in the previous year.

Nilkamal continued its focus on the three key verticals i.e., Moulded furniture, Ready Furniture and Mattress to develop a unique business model leveraging the strength of its distribution network and synergising the logistics and marketing efforts to maximize the returns.

The **Moulded Furniture business** registered a value growth of 1% over last year. The category faced serious challenge owing to rising raw material prices and trade disruptions due to pandemic. The silver lining in this category has been the growth registered in premium value-added products. The bottom of the pyramid product range experienced significant price war coming from the unorganized sector. The company plans to continue introducing new products in the mid and premium range in the next financial year.

The **Ready Furniture business** witnessed a steady growth of 33% in FY 21-22. The growth was fueled by channel expansion, new product launches and ecommerce. The company added 28 new brand stores in the financial year taking the total count to 72 stores including 10 company stores and balance franchisee stores. The company is well placed with a formidable range of product in Work From Home (WFH) category. The ecommerce presence of the brand further boosted the category sales during lockdown. The company also introduced multiple new products with a perfect blend of aesthetic and functionality. The company is boosting its capability in manufacturing products across multiple categories in the Ready Furniture range. This will help us reduce our dependency on imports and hence improve product availability and continuity. The company plans to double its retail presence by adding 75 more stores in the coming financial year.

In the **Mattress** category, the company significantly improved its play in the foam mattress range. New product launches and expansion in the trade footprint has helped the company register a growth of 30% in this category. The company has more than 1200 active channel partner. Focus on foam and spring mattress category will continue in the coming financial year. The brand and the product range are well accepted in the market. Manufacturing and logistics capabilities will also be enhanced to continue a strong CAGR in the coming years. The company plans to double its sales in the mattress category in next 3 years.

The **Ecommerce business** registered a growth of 28% over last year. The company invested resources in building the Direct To Consumer (D2C) model. The brand websites went through an overhaul with rich product content, user friendly technology and fast track delivery promise. The in-house customer service team ensured a seamless and happy customer interaction. A host of products were launched in tune with the online customer expectation. This helped the company to register a 129% growth in business from its own website. The company is putting up multiple regional warehouses to significantly improve the delivery lead time. The vision is to achieve 2-day delivery commitment across 75% of demand location by the end of FY 22-23.

Nilkamal Ltd had introduced a holistic sleep solution brand – **Doctor Dreams**. The brand has registered a significant growth in FY 21-22. The brand business in the online platform has grown by 276% over last year. The response was equally good in the website business as well as at marketplaces. Doctor Dreams introduced multiple new products that are both innovative and technology driven and are the embodiment of the brand's proposition, 'Happy Sleep Delivered'. Each product has been designed keeping in mind the sleep patterns, body ergonomics and India's prevalent weather condition. Doctor Dreams also launched its first Exclusive Offline store in Bangalore.

BubbleGUARD

"Sustainability", "social impact" and ESG reporting have transformed from just buzzwords to meaningful missions undertaken by all industries. This year we saw in most of our customers that the trigger to change their existing packaging was led by a move to be more sustainable rather than cost reduction.

The BubbleGUARD division is pleased to report a 57% YoY growth led by continued innovation in the sustainable and returnable packaging segment. This year we launched 3 new products – PalletGUARD LITE, PalletGUARD Neo and DiscGUARD.

We are introducing a new range of solutions in Q1 FY23 which is designed to offer further customization to customers maintaining our leadership in innovation and product development.

Material Handling Business

The material handling division of Nilkamal Limited specializes in the design and implementation of material handling system integration and solutions. We are a "One Stop Shop" and offer a comprehensive product mix right from bins, crates, pallets, to Material Handling Equipment and shelving, Racking and ASRS (Automated Storage & Retrieval System).

This year, our material handling business saw volume & value growth of 30% & 54% respectively.

Our manufacturing facilities, depots and sales offices across India combine comprehensive engineering, fabrication, installation, project management and customer service to provide individual components or a total systems approach resulting in unsurpassed reliable and dependable customer satisfaction.

We strive to provide movement, protection, storage and control of materials and products & improve productivity while enhancing safety & hygiene throughout manufacturing, warehousing, distribution, consumption and disposal processes.

Our experienced professionals service our customer base of 100,000+ in manufacturing and distributing service industries.

Product categories have seen growth owing to boom in Logistics, FMCG and E-commerce. Qualitative inflow of inquiries was received throughout year, and being market leader, with our effective sales network, we could provide timely, innovative, customize and apt solution to cater customers varying needs.

This year has seen rise in automation across industries with purpose of labour optimization and reducing turnaround time. Organizations are making switch from wooden pallets to plastic pallets to become compatible for automation, also investing in high end racking systems, which has contributed to growth in racking, pallets as well as crates and bins business.

In lieu of the technological advancements, we are also working with various consultants and automation partners to provide best and efficient solution across segments.

With the Government's mega vaccination drive against the corona virus, demand was seen booming for vaccine carriers and cold boxes, we were prepared with our range of vaccine carriers in different capacities, and prompt with supplies throughout the drive. New solutions like freeze-free vaccine carriers were developed, which were also enlisted under WHO approved lists.

However, there were a few projects which did not proceed to the level we had anticipated:

During the year we invested, and are investing furthermore in moulds and machines to increase our production capacities of Roto and Injection Pallets. Our offering of complete intralogistics solutions would grant us strong growth in business based on buoyant growth in many industrial sectors.

Contributing to government initiative of green planet by reducing plastic waste, company is also promoting circular economy using recycled material along with suitable circular additive in its few products.

The Lifestyle Furniture, Furnishing and Accessories Division (**@home**) registered a revenue of 177 Crs in FY 21-22, a growth of 13% over last financial year. The performance came in the background of a very tough market condition where the first quarter was completely washed out due to lockdown. The category also faced serious challenge in terms of imports with logistics cost going up significantly. @home ventured into new markets with 8 new franchisee stores during the year. At the end of the financial year, @home had 35 stores with 18 company owned stores and 17 franchised stores across India with a total retail space of 4 lac sqft. The online migration of customers continued in this year and hence the brand took significant efforts in making the offerings seamless and omnichannel.

The company intends to continue the growth momentum in FY 22-23. The growth will be fuelled by a threefold strategy of channel expansion, new product launches and e-commerce. The company is also taking measures to adopt and leverage technology to service the trade and consumer. The strong network of over 40 plus depots, strategically located regional warehouses assisted by a robust supply chain system which links the multi-location production facilities to deliver our products efficiently will help us in improving our timely fill rate to the general/modern trade and E-Commerce channels across the country.

Rising crude prices, fueled further by the Russia-Ukraine war coupled with inflation pressure will pose as a challenge to revenue growth and profitability across our businesses.

**Independent Auditor's Report
To the Members of
Nilkamal Limited
Report on the Audit of the Standalone Financial Statements**

Opinion

We have audited the standalone financial statements of Nilkamal Limited ("the Company"), which comprise the standalone balance sheet as at 31 March 2022, and the standalone statement of profit and loss (including other comprehensive income), standalone statement of changes in equity and standalone statement of cash flows for the year then ended, and notes to the standalone financial statements, including a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2022, and profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Description of Key Audit Matter

Revenue Recognition	How the matter was addressed in our audit
<p>Refer Note 36(m) of significant accounting policies and Note 33 in the standalone financial statements.</p> <p>Revenue of the Company comprises of sale of varied products related to material handling, plastic moulded products and mattresses through different channels of sales with varied customers at different contractual price points and terms; and sale of furniture through its retail outlets.</p> <p>The Company recognises revenue from sale of goods when control of the goods has been transferred and when there are no longer any unfulfilled obligations to the customer and the amount of revenue can be measured reliably and recovery of the consideration is probable.</p> <p>The Company focuses on revenue as a key performance measure which could create incentive for revenue to be recognised even with any of the above conditions not being met.</p> <p>Considering the above focus of the Company, the volume of transactions, cash collections at the retail store that need to be deposited in bank and the number of locations across India, we have identified existence and completeness of revenue from sale of products as a key audit matter.</p>	<p>In view of the significance of the matter we applied the following audit procedures in this area, among others to obtain sufficient appropriate audit evidence:</p> <ul style="list-style-type: none"> – Evaluating the Company's accounting policies for revenue recognition, in terms of applicable accounting standards. – Testing the design, implementation and operating effectiveness of the Company's general IT controls and Key IT/manual controls. These are in respect of the Company's controls which govern timing of recognition of revenue including creation of new customers in system. – Tested, by selecting statistical samples, underlying documentation and records i.e. invoices, acknowledge delivered receipts and collection receipts for sales transactions recorded throughout the year and at year end to determine the existence of revenue. – Tested, by selecting statistical samples, the underlying documentation related to credit notes such as invoices and approval of sales return. – Performing cut - off procedures at year end by verifying underlying invoices, acknowledge delivered receipts, the transit time to deliver the goods and its revenue recognition. – Analysis of one-off sales made to customers. – Testing, by selecting statistical samples, of Daily Cash Report and checking the deposit of daily cash received in bank.

Information Other than the Standalone Financial Statements and Auditors' Report Thereon

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's and Board of Directors' Responsibility for the Standalone Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs, profit/loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the standalone financial statements made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Auditor's Responsibilities for the Audit of the Standalone Annual Financial Results (Continued)

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditors' Report) Order, 2020 ("the Order") issued by the Central Government in terms of section 143 (11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

(Referred to in our report of even date)

- (i) (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment.
- (a) (B) The Company has maintained proper records showing full particulars of intangible assets.
- (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has a regular programme of physical verification of its Property, Plant and Equipment by which all Property, Plant and Equipment are verified in a phased manner over a period of three years. In accordance with this programme, certain property, plant and equipment were verified during the year. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on such verification.
- (c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the title deeds of immovable properties (other than immovable properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee) disclosed in the standalone financial statements are held in the name of the Company, except for the following which are not held in the name of the Company:

(₹ in lakhs)

Description of property	Gross carrying value	Held in the Name of	Whether promoter, director or their relative or employee	Period Held (Range)	Reason for not being in name of company
Freehold land	0.68	Nilkamal Crates & Binz	No	Since FY ended 31 March 2007	Pending completion of the relevant formalities of some of the fixed assets which vested in the Company pursuant to the scheme of amalgamation, such assets continue to be in the name of the erstwhile amalgamated companies.
Buildings	163.37	These are held in the name of the erstwhile amalgamated companies	No	Since FY ended 31 March 2007	

- (d) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not revalued its Property, Plant and Equipment (including Right of Use assets) or intangible assets or both during the year.
- (e) According to information and explanations given to us and on the basis of our examination of the records of the Company, there are no proceedings initiated or pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder.
- (ii) (a) The inventory, except goods-in-transit and stocks lying with third parties, has been physically verified by the management during the year. For stocks lying with third parties at the year-end, written confirmations have been obtained and for goods-in-transit subsequent evidence of receipts has been linked with inventory records. In our opinion, the frequency of such verification is reasonable and procedures and coverage as followed by management were appropriate. No discrepancies were noticed on verification between the physical stocks and the book records that were more than 10% in the aggregate of each class of inventory.
- (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has been sanctioned working capital limits in excess of five crore rupees, in aggregate, from banks or financial institutions on the basis of security of current assets. In our opinion, the quarterly returns or statements filed by the Company with such banks are in agreement with the books of account of the Company except for the quarter ended 30 June 2021, 30 September 2021 and 31 Dec 2021 with DBS, Union Bank of India, IDBI and State Bank of India where differences were noted between the amount as per books of account for respective quarters and amount as reported in the quarterly statements. The differences were in case of trade receivables amounting to Rs. 150.56 lakhs, Rs. 142.35 lakhs, Rs. 639.89 lakhs for the quarter ended 30 June 2021, 30 September 2021 and 31 December 2021 respectively. These statements were subsequently rectified by way of submitting quarterly returns to the respective banks for the said period.
- (iii) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not made any investments, provided guarantee or security or granted any advances in the nature of loans, secured or unsecured, to companies, firms, limited liability partnerships or any other parties during the year. The Company has granted loans to below parties during the year in respect of which the requisite information is as below. The Company has not granted any loan, secured or unsecured, to companies, firms or limited liability partnership during the year.
- (a) Based on the audit procedures carried on by us and as per the information and explanations given to us, the Company has provided loans as below:

(Rs.in lakhs)

Particulars	Loans
Aggregate amount during the year

- Employees	273.44

- (b) According to the information and explanations given to us and based on the audit procedures conducted by us, in our opinion the terms and conditions of the loans granted during the year are, prima facie, not prejudicial to the interest of the Company.
- (c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, in the case of loans given, in our opinion the repayment of principal and payment of interest has been stipulated and the repayments or receipts have been regular. Further, the Company has not given any advance in the nature of loan to any party.
- (d) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there is no overdue amount for more than ninety days in respect of loans given. Further, the Company has not given any advances in the nature of loans to any party.
- (e) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there is no loan or advance in the nature of loan granted falling due during the year, which has been renewed or extended or fresh loans granted to settle the overdues of existing loans given to same parties.
- (f) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not granted any loans or advances in the nature of loans either repayable on demand or without specifying any terms or period of repayment.
- (iv) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not given any loans, or provided any guarantee or security as specified under Section 185 and 186 of the Companies Act, 2013 ("the Act"). In respect of the investments made by the Company, in our opinion the provisions of Section 186 of the Act have been complied with.

Annexure A to the Independent Auditors' Report – 31 March 2022 (Continued)

- (v) According to the information and explanations given to us and on the basis of our examination of records of the Company, the Company has not accepted any deposits or amounts which are deemed to be deposits from the public. Accordingly, clause 3(v) of the Order is not applicable.
- (vi) We have broadly reviewed the books of accounts maintained by the Company pursuant to the rules prescribed by the Central Government for maintenance of cost records under Section 148(1) of the Act in respect of its manufactured goods and services provided by it and are of the opinion that prima facie, the prescribed accounts and records have been made and maintained. However, we have not carried out a detailed examination of the records with a view to determine whether these are accurate or complete.

Annexure B to the Independent Auditors' report on the standalone financial statements of Nilkamal Limited for the period ended 31 March 2022.**Report on the internal financial controls with reference to the aforesaid standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013****(Referred to in paragraph 2(A)(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)****Opinion**

We have audited the internal financial controls with reference to financial statements of Nilkamal Limited ("the Company") as of 31 March 2022 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2022, based on the internal financial controls with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Annexure B to the Independent Auditors' report on the standalone financial statements of Nilkamal Limited for the year ended 31 March 2022 (Continued)**Management's Responsibility for Internal Financial Controls**

The Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as "the Act").

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to standalone financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to standalone financial statements were established and maintained and whether such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements included obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to standalone financial statements.

Meaning of Internal Financial controls with Reference to Standalone Financial Statements

A company's internal financial controls with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to standalone financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal Financial controls with Reference to Standalone Financial Statements

Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial controls with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Nature and purpose of reserves**1) Retained earnings**

Retained earnings are the profits that the Company has earned till date, less any transfers to general reserve, dividends or other distributions paid to investors. This includes remeasurement of defined benefit plans arising due to actuarial valuation of gratuity, that will not be routed through Statement of profit and loss subsequently.

2) Securities premium

Securities premium is used to record the premium on issue of shares. The reserve is utilised in accordance with the provisions of the Companies Act, 2013.

2) General reserve

General reserve forms part of the retained earnings and is permitted to be distributed to shareholders as part of dividend.

3) Cash flow hedge reserve

For hedging foreign currency exposure risk, the Company uses forward contracts swaps which is also designated as cash flow hedges. To the extent these hedges are effective; the change in fair value of the hedging instrument is recognised in the cash flow hedging reserve. Amount recognised in the cash flow hedging reserve is reclassified to profit or loss when the hedged item affects profit or loss.

- (1) The Company offsets tax assets and liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority.
- (2) Management judgment is required in determining provision for income tax, deferred income tax assets and liabilities and recoverability of deferred income tax assets. The recoverability of deferred income tax assets is based on estimates of taxable income in which the relevant entity operates and the period over which deferred income tax assets will be recovered.

36 Significant accounting policies**a) Basis of preparation of Financial Statements:**

The Financial Statements of the Company have been prepared in accordance with the Indian Accounting Standards (Ind AS) to comply with the section 133 of the Companies Act 2013("the 2013 Act"), read with Rule 3 of the Companies (Indian Accounting Standards) Rules 2015, and Companies (Indian Accounting Standards) Rules, 2016. The financial statements were authorised for issue by the Company's Board of Directors on 23rd May 2022.

All the assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in Schedule III to the Act. Based on the nature of products and the time between the acquisition of assets for processing and their realization in cash and cash equivalent, the Company has ascertained the operating cycle to be 12 months.

Functional and presentation currency:

These standalone financial statements are presented in Indian rupees, which is the Company's functional currency. All amounts have been rounded off to two decimal places to the nearest lakh, unless otherwise indicated.

Historical cost convention:

The standalone financial statements have been prepared on a historical cost basis, except for the following:

- certain financial assets and liabilities (including derivative instrument) that are measured at fair value;
- defined benefit plans – plan assets measured at fair value.

b) Use of Estimates and Judgements:

The preparation of financial statements in accordance with Ind AS requires use of estimates and assumptions for some items, which might have an effect on their recognition and measurement in the balance sheet and statement of profit and loss. The actual amounts realised may differ from these estimates.

Estimates and assumptions are required in particular for:

- **Determination of the estimated useful lives of Property Plant and Equipment**

Useful lives of property plant and equipment are based on the life prescribed in Schedule II of the Companies Act, 2013. In cases, where the useful lives are different from that prescribed in Schedule II for plant and machinery and dies and moulds, they are based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers' warranties and maintenance support.

- **Recognition and measurement of defined benefit obligations**

The obligation arising from defined benefit plan is determined on the basis of actuarial assumptions. Key actuarial assumptions include discount rate, trends in salary escalation, actuarial rates and life expectancy. The discount rate is determined by reference to market yields at the end of the reporting period on government bonds. The period to maturity of the underlying bonds correspond to the probable maturity of the post-employment benefit obligations.

- **Recognition of deferred tax assets and liabilities**

Deferred tax assets and liabilities are recognized for the future tax consequences of temporary differences between the carrying values of assets and liabilities and their respective tax bases, and unutilized business loss and depreciation carry-forwards and tax credits. Deferred tax assets are recognized to the extent that it is probable that future taxable income will be available against which the deductible temporary differences, unused tax losses, depreciation carry-forwards and unused tax credits could be utilized.

- **Recognition and measurement of other provisions**

The recognition and measurement of other provisions are based on the assessment of the probability of an outflow of resources, and on past experience and circumstances known at the balance sheet date. The actual outflow of resources at a future date may therefore vary from the amount included in other provisions.

- **Discounting of long-term financial assets / liabilities**

All financial assets / liabilities are required to be measured at fair value on initial recognition. In case of financial liabilities / assets which are required to subsequently be measured at amortised cost, interest is accrued using the effective interest method.

- **Segment reporting**

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker. The Company prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Company as a whole.

- **Fair value of financial instruments**

Derivatives are carried at fair value. Derivatives includes foreign currency forward contracts and interest rate swaps. Fair value of foreign currency forward contracts are determined using the fair value reports provided by respective bankers. Fair value of interest rate swaps are determined with respect to current market rate of interest.

- **Measurement of fair values**

The Company's accounting policies and disclosures require the measurement of fair values for financial instruments.

The Company has an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of a financial asset or a financial liability, the Company uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- **Level 1:** quoted prices (unadjusted) in active markets for identical assets or liabilities.
- **Level 2:** inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- **Level 3:** inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

c) **Standards issued but not yet effective**

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 23, 2022, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2022, applicable from April 1st, 2022, as below:

- Ind AS 103 – Reference to Conceptual Framework - The amendments specify that to qualify for recognition as part of applying the acquisition method, the identifiable assets acquired and liabilities assumed must meet the definitions of assets and liabilities in the Conceptual Framework for Financial Reporting under Indian Accounting Standards (Conceptual Framework) issued by the Institute of Chartered Accountants of India at the acquisition date. These changes do not significantly change the requirements of Ind AS 103.
- Ind AS 16 – Proceeds before intended use - The amendments mainly prohibit an entity from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, an entity will recognise such sales proceeds and related cost in profit or loss.
- Ind AS 37 – Onerous Contracts - Costs of Fulfilling a Contract - The amendments specify that that the 'cost of fulfilling' a contract comprises the 'costs that relate directly to the contract'. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts.
- Ind AS 109 – Annual Improvements to Ind AS (2021) - The amendment clarifies which fees an entity includes when it applies the '10 percent' test of Ind AS 109 in assessing whether to derecognise a financial liability.
- Ind AS 116 – Annual Improvements to Ind AS (2021) - The amendments remove the illustration of the reimbursement of leasehold improvements by the lessor in order to resolve any potential confusion

regarding the treatment of lease incentives that might arise because of how lease incentives were described in that illustration. The Company is assessing the impact of these changes and will accordingly incorporate the same in the financial statements for the year ending March 2023.

d) Property, plant and equipment:

- **Recognition and measurement**

Items of property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses.

The cost of an item of property, plant and equipment comprises:

Its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates.

Any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

The initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located, the obligation for which an entity incurs either when the item is acquired or as a consequence of having used the item during a particular period for purposes other than to produce inventories during that period.

Income and expenses related to the incidental operations, not necessary to bring the item to the location and condition necessary for it to be capable of operating in the manner intended by management, are recognised in profit or loss.

Items such as spare parts, stand-by equipments and servicing that meets the definition of property, plant and equipment are capitalised at cost and depreciated over the useful life.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted and depreciated for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

Capital work in progress is stated at cost and includes the cost of the assets that are not ready for their intended use at the Balance Sheet date.

- **Subsequent expenditure**

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company and the cost of the item can be measured reliably.

e) Depreciation:

- Depreciation on property plant and equipment is provided on the straight-line method over the useful lives of assets as prescribed under Part C of Schedule II of the Companies Act, 2013 except for plant and machinery and Dies and moulds which is based on technical evaluation. Management believes that these useful lives best represent the period over which management expects to use these assets. Hence the useful life for plant and machinery of 10 years and for Dies and Moulds of 6 years for continuous running is different from the useful life as prescribed under Part C of Schedule II of the Companies Act 2013;

Useful life of property plant and equipment are reviewed at each balance sheet date and adjusted prospectively, if appropriate.

- Cost of leasehold land is amortised over the period of lease;
- Depreciation on addition to assets or on sale /discardment of assets, is calculated pro rata from the date of such addition or upto the date of such sale/discardment, as the case may be;
- Assets like mobile phones, telephone instruments, etc. are fully depreciated in the year of purchase / acquisition;
- Individual assets except assets given on lease acquired for less than ₹ 15,000/- are depreciated entirely in the year of acquisition.

f) Intangible Fixed Assets :

Intangible assets, which are acquired by the Company and have finite useful lives are measured at cost less accumulated amortisation and any accumulated impairment losses.

All other expenditure, including expenditure on internally generated goodwill and brands, is recognised in profit or loss as incurred.

g) Amortisation:

Software (Intangible assets) are amortised over their estimated useful lives on a straight line basis but not exceeding the period of 36 months.

Useful life of Intangible assets are reviewed at each balance sheet date and adjusted prospectively, if appropriate.

h) Financial Instruments:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial instruments also include derivative contracts such as foreign currency foreign exchange forward contracts and, interest rate swaps and currency options; and embedded derivatives in the host contract.

Financial instruments also covers contracts to buy or sell a non-financial item that can be settled net in cash or another financial instrument, or by exchanging financial instruments, as if the contracts were financial instruments, with the exception of contracts that were entered into and continue to be held for the purpose of the receipt or delivery of a non-financial item in accordance with the entity's expected purchase, sale or usage requirements.

Derivatives are currently recognized at fair value on the date on which the derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period.

Cash Flow Hedges

The Company uses derivative financial instrument such as forward contracts and cross currency interest rate swaps to hedge its foreign currency risks and interest rate risks. Derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to the Statement of Profit and Loss, except for the effective portion of cash flow hedge, which is recognised in Other Comprehensive Income and accumulated in Cash Flow Hedge Reserve included in the Reserves and Surplus while any ineffective portion is recognised immediately in the Statement of Profit and Loss.

For the purpose of hedge accounting, hedges are classified as:

Fair value hedges when hedging the exposure to changes in the fair value of a recognised asset or liability.

Cash flow hedges when hedging exposure to variability in cash flows that is either attributable to particular risk associated with a recognised asset or liability.

At the inception of a hedge relationship, the Company formally designates and documents the hedge relationship to which the Company wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge. The documentation includes identification of the hedging instrument, the hedged item or transaction, the nature of the risk being hedged and how the entity will assess the effectiveness of changes in the hedging instrument's fair value in offsetting the exposure to changes in the hedged item's fair value or cash flows attributable to the hedged risk. Such hedges are expected to be highly effective in achieving offsetting changes in fair value or cash flows and are assessed on an ongoing basis to determine that they actually have been highly effective throughout the financial reporting periods for which they were designated.

Hedge accounting is discontinued from the last testing date when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. Cumulative gain or loss on such hedging instrument recognised in Cash Flow Hedge Reserve is retained there until the forecasted transaction occurs. If a hedged transaction is no longer expected to occur, the net cumulative gain or loss recognised in Cash Flow Hedge Reserve is transferred to Statement of Profit and Loss for the year.

Financial Assets

Classification

The Company shall classify financial assets as subsequently measured at amortised cost, fair value through other comprehensive income or fair value through profit or loss on the basis of its business model for managing the financial assets and the contractual cash flow characteristics of the financial asset.

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial

asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables. For more information on receivables, refer to Note 49.

Equity investments

All equity investments in scope of Ind-AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company decides to classify the same either as at FVOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as FVOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognised (i.e. removed from the Company's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Impairment of financial assets

In accordance with Ind-AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- a) Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, and bank balance.
- b) Trade receivables - The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. Trade receivables are tested for impairment on a specific basis after considering the sanctioned credit limits, security like letters of credit, security deposit collected etc. and expectations about future cash flows.

Financial liabilities**Classification**

The Company classifies all financial liabilities as subsequently measured at amortised cost, except for financial liabilities at fair value through profit or loss. Such liabilities, including derivatives that are liabilities, shall be subsequently measured at fair value.

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable and incremental transaction cost.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and derivative financial instruments.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

i) Valuation of Inventories:

Inventories of Raw Materials, Packing Materials, Stores and Spares, Work-in Progress, Traded goods and Finished goods are valued 'at cost and net realisable value' whichever is lower. Cost comprises all cost of purchase, appropriate direct production overheads and other costs incurred in bringing the inventories to their present location and condition. Cost formulae used is 'Weighted Average Cost'. Due allowance is estimated and made for defective and obsolete items, wherever necessary, based on the past experience of the Company. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale. Raw materials and other supplies held for use in the production of inventories are not written down below cost except in case where material prices have declined and it is estimated that the cost of the finished product will exceed its net realisable value.

j) Employee Benefits:**Short Term Employee Benefits**

All employee benefits payable within twelve months of rendering the service are recognised in the period in which the employee renders the related service.

Post Employment / Retirement Benefits

Contribution to Defined Contribution Plans such as Provident Fund, Employees' State Insurance Corporation, etc., are charged to the Statement of Profit and Loss as incurred.

Defined Benefit Plans – The present value of the obligation under such plans is determined based on an actuarial valuation by an independent actuary at the end of each year, using the Projected Unit Credit Method. In the case of gratuity, which is funded, the fair value of the plan assets is reduced from the gross obligation under the defined benefit plans, to recognise the obligation on net basis.

Remeasurement of net defined benefit liability, which comprises actuarial gains and losses and the return on plan assets (excluding interest) and the effect of the asset ceiling (if any excluding interest), are recognized immediately in other comprehensive income.

Other Long Term Employee Benefits**Compensated Absences**

Accumulated compensated absences, which are expected to be availed or encashed within 12 months from the end of the year-end are treated as short term employee benefits. The obligation towards the same is measured at the expected cost of accumulating compensated absences as the additional amount expected to be paid as a result of the unused entitlement as at the year-end. Accumulated compensated absences, which are expected to be availed or encashed beyond 12 months from the end of the year-end are treated as other long-term employee benefits. The Company's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. Actuarial losses/ gains are recognised in the Statement of Profit and Loss in the year in which they arise.

k) Foreign Exchange Transactions:

Transactions in foreign currencies are translated into the respective functional currencies of the Company at the exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Foreign currency differences are generally recognised in profit or loss. Non-monetary items that are measured based on historical cost in a foreign currency are translated using the exchange rate as at the date of the transaction.

l) Borrowing Costs:

Borrowing costs that are directly attributable to the acquisition or construction of an asset that necessarily takes a substantial period of time to get ready for its intended use are capitalised as part of the cost of that asset till the date it is ready for its intended use or sale. Other borrowing costs are recognised as an expense in the period in which they are incurred.

m) Revenue Recognition:

The Company derives revenues primarily from sale of manufactured goods, traded goods and related services.

Revenue is recognised on satisfaction of performance obligation upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Company expects to receive in exchange for those products or services. The performance obligations in our contracts are fulfilled at the time of dispatch, delivery or upon formal customer acceptance depending on customer terms.

Revenue is measured based on transaction price which is fair value of the consideration received or receivable, after deduction of any discounts, sales incentives / schemes and any taxes or duties collected on behalf of the government such as goods and services tax, etc. Accumulated experience is used to estimate the provision for such discounts and sales incentives / schemes. Revenue is only recognised to the extent that it is highly probable a significant reversal will not occur.

Dividend income is recognized in statement of profit and loss only when the right to receive payment is established.

Export incentives receivable under various schemes are accounted on accrual basis.

Interest income is recognized using the effective interest rate method.

n) Leases:

At the inception it is assessed, whether a contract is a lease or contains a lease. A contract is a lease or contains a lease if it conveys the right to control the use of an identified asset, for a period of time, in exchange for consideration.

To assess whether a contract conveys the right to control the use of an identified asset, Company assesses whether the contract involves the use of an identified asset. Use may be specified explicitly or implicitly.

- Use should be physically distinct or represent substantially all of the capacity of a physically distinct asset.
- If the supplier has a substantive substitution right, then the asset is not identified.
- Company has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use
- Company has the right to direct the use of the asset.

- In cases where the usage of the asset is predetermined, the right to direct the use of the asset is determined when Company has the right to use the asset or Company designed the asset in a way that predetermines how and for what purpose it will be used.

At the commencement or modification of a contract, that contains a lease component, Company allocates the consideration in the contract, to each lease component, on the basis of its relative standalone prices. For leases of property, it is elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

As a Lessee:

Company recognizes a right-of-use asset and a lease liability at the lease commencement date.

Right-of-use asset (ROU):

The right-of-use asset is initially measured at cost. Cost comprises of the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, any initial direct costs incurred by the lessee, an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located less any lease incentives received.

After the commencement date, a lessee shall measure the right-of-use asset applying cost model, which is Cost less any accumulated depreciation and any accumulated impairment losses and also adjusted for certain re-measurements of the lease liability.

Right-of-use asset is depreciated using straight-line method from the commencement date to the end of the lease term. If the lease transfers the ownership of the underlying asset to the Company at the end of the lease term or the cost of the right-of-use asset reflects Company will exercise the purchase option, ROU will be depreciated over the useful life of the underlying asset, which is determined based on the same basis as property, plant and equipment.

Lease liability:

Lease liability is initially measured at the present value of lease payments that are not paid at the commencement date. Discounting is done using the implicit interest rate in the lease, if that rate cannot be readily determined, then using Company's incremental borrowing rate. Incremental borrowing rate is determined based on entity's borrowing rate adjusted for terms of the lease and type of the asset leased.

Lease payments included in the measurement of the lease liability comprises of fixed payments (including in substance fixed payments), variable lease payments that depends on an index or a rate, initially measured using the index or rate at the commencement date, amount expected to be payable under a residual value guarantee, the exercise price under a purchase option that the Company is reasonably certain to exercise, lease payments in an optional renewal period if the Company is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Company is reasonably certain not to terminate early.

Lease liability is measured at amortised cost using the effective interest method. Lease liability is re-measured when there is a change in the lease term, a change in its assessment of whether it will exercise a purchase, extension or termination option or a revised in-substance fixed lease payment, a change in the amounts expected to be payable under a residual value guarantee and a change in future lease payments arising from change in an index or rate.

When the lease liability is re-measured, corresponding adjustment is made to the carrying amount of the right-of-use asset. If the carrying amount of the right-of-use asset has been reduced to zero it will be recorded in statement of profit and loss.

Right-of-use asset is presented under "Property Plant and Equipment" and lease liabilities are presented under "Financial liabilities" in the balance sheet.

Company has elected not to recognise right-of-use assets and lease liabilities for short-term leases. The lease payments associated with these leases are recognised as an expense on a straight-line basis over the lease term.

Lessor

At the commencement or modification of a contract, that contains a lease component, Company allocates the consideration in the contract, to each lease component, on the basis of its relative standalone prices.

At the inception of the lease, it is determined whether it is a finance lease or an operating lease. If the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset, then it is a financial lease, otherwise it is an operating lease.

If the lease arrangement contains lease and non-lease components, then the consideration in the contract is allocated using the principles of IND AS 115. The Company tests for the impairment losses at the year end.

Payment received under operating lease is recognised as income on straight line basis, over the lease term.

The accounting policies applicable to the Company as a lessor, in the comparative period, were not different from IND AS 116.

o) Impairment of non-financial assets

The carrying values of assets/cash generating units at each balance sheet date are reviewed for impairment if any indication of impairment exists. If the carrying amount of the assets exceed the estimated recoverable amount, an impairment is recognised for such excess amount.

The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor.

When there is indication that an impairment loss recognised for an asset (other than a revalued asset) in earlier accounting periods which no longer exists or may have decreased, such reversal of impairment loss is recognised in the Statement of Profit and Loss, to the extent the amount was previously charged to the Statement of Profit and Loss. In case of revalued assets, such reversal is not recognised.

p) Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with remaining maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

q) Taxation:

Income tax expense comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination, or items recognised directly in equity or in OCI.

i) Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. It is measured using tax rates enacted or substantively enacted at the reporting date. Current tax also includes any tax arising from dividends.

Current tax assets and liabilities are offset only if, the Company:

- a) has a legally enforceable right to set off the recognised amounts; and
- b) intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Uncertain Tax position:

Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate. The provision is estimated based on one of two methods, the expected value method (the sum of the probability weighted amounts in a range of possible outcomes) or the single most likely amount method, depending on which is expected to better predict the resolution of the uncertainty.

ii) Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for:

- temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss;
- temporary differences related to investments in subsidiaries and associates to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available, against which they can be used. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that

it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves.

Unrecognized deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset only if:

- a)** The entity has a legally enforceable right to set off current tax assets against current tax liabilities; and
- b)** The deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on the same taxable entity.

Deferred tax asset / liabilities in respect of on temporary differences, which originate and reverse during the tax holiday period are not recognised. Deferred tax assets / liabilities in respect of temporary differences that originate during the tax holiday period but reverse after the tax holiday period are recognised.

r) Government Grants:

Grants received from the government are recognized at their fair value where there is reasonable assurance that the grant will be received and the Company will comply with the conditions.

Government grants related to income are deferred and recognized in the profit or loss over the period necessary to match them with the costs that they are intended to compensate and netted off with the expense in the statement of profit and loss.

Government grants related to purchase of property plant and equipment are recognised by deducting the grant from the carrying amount of the property plant and equipment in which case the grant is recognised in profit or loss as a reduction of depreciation charged.

s) Provisions, Contingent Assets and Contingent Liabilities:

A provision is recognised when the Company has a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, in respect of which a reliable estimate can be made. These are reviewed at each balance sheet date and adjusted to reflect the current management estimates.

If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows specific to the liability. The unwinding of the discount is recognised as finance cost.

Contingent Liabilities are disclosed in respect of possible obligations that arise from past events, but their existence is confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity. Contingent Assets are not recognised till the realization of the income is virtually certain. However, the same are disclosed in the financial statements where an inflow of economic benefits is probable.

t) Earnings per share

Basic earnings per share is computed by dividing the net profit for the period attributable to the equity shareholders of the Company by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

37. Contingent Liabilities and commitments to the extent not provided for in respect of:**a) Contingent liabilities :-****1) Claims against the company not acknowledged as debts:**

C. Financial risk management

The Company has exposure to the following risks arising from financial instruments:

- Credit risk ;
- Liquidity risk ; and
- Market risk

i. Risk management framework

The Company's Board of Directors has overall responsibility for the establishment and oversight of the Company's Risk Management framework. The Board of Directors have adopted an Enterprise Risk Management Policy framed by the Company, which identifies the risk and lays down the risk minimization procedures. The Management reviews the Risk management policies and systems on a regular basis to reflect changes in market conditions and the Company's activities, and the same is reported to the Board of Directors periodically. Further, the Company, in order to deal with the future risks, has in place various methods / processes which have been imbibed in its organizational structure and proper internal controls are in place to keep a check on lapses, and the same are been modified in accordance with the regular requirements.

The Audit Committee oversees how Management monitors compliance with the Company's Risk Management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The Audit Committee is assisted in its oversight role by the internal auditors.

ii. Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and loans and advances.

The carrying amount of following financial assets represents the maximum credit exposure:

Trade receivables and loans and advances.

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer in which it operates. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business.

The Risk Management Committee has established a credit policy under which each new customer is analysed individually for creditworthiness before the Company's standard payment and delivery terms and conditions are offered. Further for domestic sales, the company segments the customers into Distributors and Others for credit monitoring.

The Company maintains security deposits for sales made to its distributors. For other trade receivables, the company individually monitors the sanctioned credit limits as against the outstanding balances. Accordingly, the Company makes specific provisions against such trade receivables wherever required and monitors the same at periodic intervals.

The Company monitors each loans and advances given and makes any specific provision wherever required.

The Company establishes an allowance for impairment that represents its estimate of expected losses in respect of trade receivables and loans and advances.

Loans and Other financial assets:

The Company held loans and other financial assets of ₹ 4,356.43 lakhs as on March 31, 2022 (Previous year ₹ 4,942.31 lakhs). The loans and other financial assets are in nature of rent deposit paid to landlords, bank deposits with maturity more than twelve months and others and are fully recoverable.

iii. Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

As of 31st March, 2022 and 31st March, 2021 the Company had unutilized credit limits from banks of ₹ 20,066.51 lakhs and ₹ 14,000 lakhs respectively.

iv. Market risk

Market risk is the risk that changes in market prices – such as foreign exchange rates, interest rates and equity prices – will affect the Company's income or the value of its holdings of financial instruments. Market risk is attributable to all market risk sensitive financial instruments including foreign currency receivables and payables and long term debt. We are exposed to market risk primarily related to foreign exchange rate risk, interest rate risk and the market value of our investments. Thus, our exposure to market risk is a function of investing and borrowing activities and revenue generating and operating activities in foreign currency. The objective of market risk management is to avoid excessive exposure in our foreign currency revenues and costs.

49 Financial instruments – Fair values and risk management (Continued)**Currency risk**

The Company is exposed to currency risk on account of its borrowings and other payables in foreign currency. The functional currency of the Company is Indian Rupee. The Company uses forward exchange contracts to hedge its currency risk, most with a maturity of less than one year from the reporting date.

Sensitivity analysis

A reasonably possible strengthening (weakening) of the foreign Currency against the Indian Rupee at 31st March would have affected the measurement of financial instruments denominated in foreign currencies and affected equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecast sales and purchases.

49 Financial instruments – Fair values and risk management (Continued)**Interest rate risk**

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing investments because of fluctuations in the interest rates. Cash flow interest rate risk is the risk that the future cash flows of floating interest bearing investments will fluctuate because of fluctuations in the interest rates.

Exposure to interest rate risk

Company's interest rate risk arises from borrowings. The interest rate profile of the Company's interest-bearing financial instruments as reported to the management of the Company is as follows.

(₹ in lakhs)

	31st March, 2022	31st March, 2021
Borrowings		
Fixed rate borrowings	12,330.23	-
Variable rate borrowings	4,401.10	4,636.57

Cash flow sensitivity analysis for variable-rate instruments

A reasonably possible change of 100 basis points in interest rates at the reporting date would have increased (decreased) profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency exchange rates, remain constant.

(₹ in lakhs)

Particulars	Profit or (loss)	
	100 bp increase	100 bp decrease
March 31, 2022		
Variable-rate instruments	(44.01)	44.01
Interest rate swaps	29.68	(29.68)
Cash flow sensitivity (net)	(14.33)	14.33
March 31, 2021		
Variable-rate instruments	(46.37)	46.37
Interest rate swaps	46.37	(46.37)
Cash flow sensitivity (net)	-	-

The risk estimates provided assume a parallel shift of 100 basis points interest rate across all yield curves. This calculation also assumes that the change occurs at the balance sheet date and has been calculated based on risk exposures outstanding as at that date. The period end balances are not necessarily representative of the average debt outstanding during the period.

50 Capital Management

For the purpose of the Company's capital management, capital includes issued capital and other equity reserves. The primary objective of the Company's Capital Management is to maximise shareholders value. The Company manages its capital structure and makes adjustments in the light of changes in economic environment and the requirements of the financial covenants.

The Company monitors capital using debt to equity ratio.

The Company contributes to the following post-employment defined benefit plans in India.

(i) Defined Contribution Plans:

The contributions to the Provident Fund and Family Pension Fund of certain employees are made to a Government administered Provident Fund and there are no further obligations beyond making such contribution.

The Company recognised ₹ 845.78 lakhs for year ended 31 March 2022 (Previous year ₹ 793.40 lakhs) provident fund contributions in the Statement of Profit and Loss.

The contributions payable to these plans by the Company are at rates specified in the rules of the schemes.

(ii) Defined Benefit Plan:

A. Gratuity

The Company participates in the Employees Gratuity scheme, a funded defined benefit plan for qualifying employees. Gratuity is payable to all eligible employees on death or on separation / termination in terms of the provisions of the Payment of Gratuity Act, 1972.

The most recent actuarial valuation of plan assets and the present value of the defined benefit obligation for gratuity were carried out as at March 31, 2022. The present value of the defined benefit obligations and the related current service cost and past service cost, were measured using the Projected Unit Credit Method.

(ii) Defined Benefit Plan: (Continued)**C. Plan assets**

Plan assets comprise the following:

(₹ in lakhs)

	31st March, 2022	31st March, 2021
Fund managed by Insurance Company	2,371.95	2,259.86

D. Defined benefit obligations**i. Actuarial assumptions**

The following were the principal actuarial assumptions at the reporting date (expressed as weighted averages).

	31st March, 2022	31st March, 2021
Discount rate	6.80%p.a.	6.80%p.a.
Expected Rate of Return on Plan Assets	6.80%p.a.	6.80%p.a.
Salary escalation rate	6.00%p.a.	6.00%p.a.
Employee Turnover	5.00% to 1 % p.a.	5.00% to 1 % p.a.
Mortality rate	Indian Assured Lives Mortality (2012-14) Ult.	Indian Assured Lives Mortality (2012-14) Ult.

Assumptions regarding future mortality have been based on published statistics and mortality tables.

ii. Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation as follows.

(₹ in lakhs)

	31st March, 2022		31st March, 2021	
	Increase	Decrease	Increase	Decrease
Discount rate (1% movement)	1,844.91	2,209.78	1,780.24	2,085.03
Future salary growth (1% movement)	2,209.38	1,842.21	2,084.65	1,731.41
Rate of employee turnover (1% movement)	2,024.13	2,002.35	1,906.41	1,885.17

The sensitivity analysis above have been determined based on a method that extrapolates the impact on defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting period.

Expected future cash flows

The expected future cash flows in respect of gratuity as at March 31, 2022 were as follows.

Expected contribution

The expected contributions for defined benefit plan for the next financial year will be in line with the contribution for the year ended March 31, 2022, i.e. ₹ 278.58 lakhs.

52 Hedge accounting

The Company's risk management policy is to hedge its estimated foreign currency exposure in respect of highly probable forecast purchases and foreign currency borrowings. The Company uses forward exchange contracts to hedge its currency risk and cross currency interest rate swap to hedge its interest rate and currency risk related to foreign currency borrowings. Such contracts are generally designated as cash flow hedges.

The Company determines the existence of an economic relationship between the hedging instrument and hedged item based on the currency, amount and timing of their respective cash flows. The Company assesses whether the derivative designated in each hedging relationship is expected to be and has been effective in offsetting changes in the cash flows of the hedged item using the hypothetical derivative method.

Independent Auditor's Report**To the Members of Nilkamal Limited****Report on the Audit of Consolidated Financial Statements****Opinion**

We have audited the consolidated financial statements of Nilkamal Limited (hereinafter referred to as the 'Holding Company') and its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group") and its joint venture, which comprise the consolidated balance sheet as at 31 March 2022, and the consolidated statement of profit and loss (including other comprehensive income), consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of reports of other auditors on separate/consolidated financial statements of such subsidiaries and joint venture as were audited by the other auditors, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group and its joint venture as at 31 March 2022, of its consolidated profit and other comprehensive income, consolidated changes in equity and consolidated cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group and its joint venture in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in terms of the Code of Ethics issued by the Institute of Chartered Accountants of India and the relevant provisions of the Act, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence obtained by us along with the consideration of audit reports of the other auditors referred to in sub paragraph (a) of the "Other Matters" paragraph below, is sufficient and appropriate to provide a basis for our opinion on the consolidated financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Description of Key Audit Matter

Revenue Recognition	How the matter was addressed in our audit
<p>Refer Note 36(o) of significant accounting policies and Note 33 in the consolidated financial statements.</p> <p>Revenue of the Company comprises of sale of varied products related to material handling, plastic moulded products and mattresses through different channels of sales with varied customers at different contractual price points and terms; and sale of furniture through its retail outlets.</p> <p>The Company recognises revenue from sale of goods when control of the goods has been transferred and when there are no longer any unfulfilled obligations to the customer and the amount of revenue can be measured reliably and recovery of the consideration is probable.</p> <p>The Company focuses on revenue as a key performance measure which could create incentive for revenue to be recognised even with any of the above conditions not being met.</p> <p>Considering the above focus of the Company, the volume of transactions, cash collections at the retail store that need to be deposited in bank and the number of locations across India, we have identified existence and completeness of revenue from sale of products as a key audit matter.</p>	<p>In view of the significance of the matter we applied the following audit procedures in this area, among others to obtain sufficient appropriate audit evidence:</p> <ul style="list-style-type: none"> - Evaluating the Company's accounting policies for revenue recognition, in terms of applicable accounting standards. - Testing the design, implementation and operating effectiveness of the Company's general IT controls and Key IT/manual controls. These are in respect of the Company's controls which govern timing of recognition of revenue including creation of new customers in system. - Tested, by selecting statistical samples, underlying documentation and records i.e. invoices, acknowledge delivered receipts and collection receipts for sales transactions recorded throughout the year and at year end to determine the existence of revenue. - Tested, by selecting statistical samples, the underlying documentation related to credit notes such as invoices and approval of sales return. - Performing cut - off procedures at year end by verifying underlying invoices, acknowledge delivered receipts, the transit time to deliver the goods and its revenue recognition. - Analysis of one-off sales made to customers. - Testing, by selecting statistical samples, of Daily Cash Report and checking the deposit of daily cash received in bank

Other Information

The Holding Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the holding Company's annual report, but does not include the consolidated financial statements and our auditors' report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed and based on the work done/ audit report of other auditors, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's and Board of Directors' Responsibilities for the Consolidated Financial Statements

The Holding Company's Management and Board of Directors are responsible for the preparation and presentation of these consolidated financial statements in term of the requirements of the Act that give a true and fair view of the consolidated state of affairs, consolidated profit and other comprehensive income, consolidated statement of changes in equity and consolidated cash flows of the Group including its joint venture in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. The respective Management and Board of Directors of the companies included in the Group and of its joint venture are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of each company. and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Management and Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Management and Board of Directors of the companies included in the Group and of its joint venture are responsible for assessing the ability of each company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and of its joint venture are responsible for overseeing the financial reporting process of each company.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on the internal financial controls with reference to the consolidated financial statements and the operating effectiveness of such controls based on our audit.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements (Continued)

- Conclude on the appropriateness of Management and Board of Directors use of the going concern basis of accounting in preparation of consolidated financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the appropriateness of this assumption. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its joint venture to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of such entities or business activities within the Group and its joint venture to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of financial information of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion. Our responsibilities in this regard are further described in para (a) of the section titled 'Other Matters' in this audit report.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

- (a) We did not audit the financial statements of four subsidiaries, whose financial statements reflect total assets (before consolidation adjustments) of Rs. 5,149.23 lakhs as at 31 March 2022, total revenues (before consolidation adjustments) of Rs. 8,304.61 lakhs and net cash flows (before consolidation adjustments) amounting to Rs.704.94 lakhs for the year ended on that date, as considered in the consolidated financial statements. The consolidated financial statements also include the Group's share of net profit (and other comprehensive income) of Rs.569.69 for the year ended 31 March 2022, in respect of one joint venture, whose financial statements have not been audited by us. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and joint venture and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries and joint venture is based solely on the audit reports of the other auditors.

Certain of these subsidiaries are located outside India whose financial statements and other financial information have been prepared in accordance with accounting principles generally accepted in their respective countries and which have been audited by other auditors under generally accepted auditing standards applicable in their respective countries. The Holding Company's management has converted the financial statements of such subsidiaries located outside India from accounting principles generally accepted in their respective countries to accounting principles generally accepted in India. We have audited these conversion adjustments made by the Company's management. Our opinion in so far as it relates to the balances and affairs of such subsidiaries located outside India is based on the report of other auditors and the conversion adjustments prepared by the management of the Holding Company and audited by us.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements certified by the Management.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of Section 143 (11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. (A) As required by Section 143(3) of the Act, based on our audit and on the consideration of reports of the other auditors on separate/consolidated financial statements of such subsidiaries and joint venture as were audited by other auditors, as noted in the 'Other Matters' paragraph, we report, to the extent applicable, that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
 - b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.
 - c) The consolidated balance sheet, the consolidated statement of profit and loss (including other comprehensive income), the consolidated statement of changes in equity and the consolidated statement of cash flows dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
 - d) In our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under section 133 of the Act.
 - e) On the basis of the written representations received from the directors of the Holding Company as on 31 March 2022 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors of its subsidiary companies and its joint venture incorporated in India, none of the directors of the Group companies and joint venture incorporated in India is disqualified as on 31 March 2022 from being appointed as a director in terms of Section 164(2) of the Act.
 - f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Holding Company, its subsidiary companies and joint venture incorporated in India and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
- (B) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors on separate financial statements of the subsidiaries and joint venture, as noted in the 'Other Matters' paragraph:
 - a) The consolidated financial statements disclose the impact of pending litigations as at 31 March 2022 on the consolidated financial position of the Group and its joint venture. Refer Note 37(a) to the consolidated financial statements.
 - b) The Group and its joint venture did not have any material foreseeable losses on long-term contracts including derivative contracts during the year ended 31 March 2022.
 - c) There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Holding Company or its subsidiary companies and joint venture incorporated in India during the year ended 31 March 2022.
 - d) (i) The management has represented that, to the best of its knowledge and belief, as disclosed in the note 34 (C) (ii) of the consolidated financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Holding Company or its subsidiary companies, and joint venture company incorporated in India to or in any other persons or entities, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall:
 - directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever ("Ultimate Beneficiaries") by or on behalf of the Holding Company or its subsidiary companies and joint venture companies incorporated in India or
 - provide any guarantee, security or the like to or on behalf of the Ultimate Beneficiaries.
 - (ii) The management has represented, that, to the best of its knowledge and belief, as disclosed in the note 34 (C) (ii) of the consolidated financial statements, no funds have been received by the Holding Company or its subsidiary companies and joint venture company incorporated in India from any persons or entities, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Holding Company or its subsidiary companies and joint venture company incorporated in India shall:

Annexure B to the Independent Auditors' report on the consolidated financial statements of Nilkamal Limited for the period ended 31 March 2022**Report on the internal financial controls with reference to the aforesaid consolidated financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013****(Referred to in paragraph (2(A)(f)) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)****Opinion**

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31 March 2022, we have audited the internal financial controls with reference to consolidated financial statements of Nilkamal Limited (hereinafter referred to as "the Holding Company") and such companies incorporated in India under the Companies Act, 2013 which are its subsidiary companies and its joint venture companies as of that date.

In our opinion, the Holding Company and such companies incorporated in India which are its subsidiary companies and joint venture company, have, in all material respects, adequate internal financial controls with reference to consolidated financial statements and such internal financial controls were operating effectively as at 31 March 2022, based on the internal financial controls with reference to consolidated financial statements criteria established by such companies considering the essential components of such internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's Responsibility for Internal Financial Controls

The respective Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls with reference to consolidated financial statements based on the criteria established by the respective Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as "the Act").

Auditors' Responsibility

Our responsibility is to express an opinion on the internal financial controls with reference to consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to consolidated financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls with reference to consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of the internal controls based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors of the relevant subsidiary companies and joint venture company in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to consolidated financial statements.

Meaning of Internal Financial controls with Reference to Consolidated Financial Statements

A company's internal financial controls with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial controls with Reference to consolidated Financial Statements

Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial controls with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Other Matters

Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to consolidated financial statements insofar as it relates to one subsidiary company and one joint venture company, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India.

Nature and purpose of reserves**1) Retained earnings**

Retained earnings are the profits that the Company has earned till date, less any transfers to general reserve, dividends or other distributions paid to investors. This includes remeasurement of defined benefit plans arising due to actuarial valuation of gratuity, that will not be routed through Statement of profit and loss subsequently.

2) Securities premium

Securities premium is used to record the premium on issue of shares. The reserve is utilised in accordance with the provisions of the Companies Act, 2013.

3) General reserve

General reserve forms part of the retained earnings and is permitted to be distributed to shareholders as part of dividend.

4) Cash flow hedge reserve

For hedging interest rate risk, the Group uses interest rate swaps which is also designated as cash flow hedges. To the extent these hedges are effective; the change in fair value of the hedging instrument is recognised in the cash flow hedging reserve. Amount recognised in the cash flow hedging reserve is reclassified to profit or loss when the hedged item affects profit or loss.

- The Group offsets tax assets and liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority.
- Management judgement is required in determining provision for income tax, deferred income tax assets and liabilities and recoverability of deferred income tax assets. The recoverability of deferred income tax assets is based on estimates of taxable income in which the relevant entity operates and the period over which deferred income tax assets will be recovered.

36. Significant accounting policies**a) Basis of preparation of consolidated Financial Statements:**

The Consolidated Financial Statements comprise the financial statements of Nilkamal Limited ("the holding Company") and its subsidiaries ("the holding Company and its subsidiaries together referred as the Group") and the group's interest in joint ventures. Company have been prepared in accordance with the Indian Accounting Standards (Ind AS) to comply with the section 133 of the Companies Act 2013 ("the Act"), and read with Rule 3 of the Companies (Indian Accounting Standards) Rules 2015 and Companies (Indian Accounting Standards) Rules 2016. The financial statements were authorised for issue by the Holding Company's Board of Directors on 23rd May 2022.

All the assets and liabilities have been classified as current or non current as per the Group's normal operating cycle and other criteria set out in Schedule III to the Act. Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalent, the Group has ascertained the operating cycle to be 12 months.

b) Principles of Consolidation:

The consolidated financial statements comprise the financial statements of Nilkamal Limited ("the Holding Company"), its subsidiaries (the Holding Company and its subsidiaries together referred as "the Group") and the group's interest in joint ventures.

Subsidiaries

Subsidiaries are all entities (including special purpose entities) that are controlled by the Company. Control exists when the Company is exposed to, or has the ability to affect those returns through power over the entity. In assessing control, potential voting rights are considered only if the rights are substantive. The financial statements of subsidiaries are included in these consolidated financial statements from the date that control commences until the date that control ceases. The financial statements of the Company and its subsidiaries have been consolidated using uniform accounting policies for like transactions and other events in similar circumstances as mentioned in those policies.

Upon loss of control, the Group derecognises the assets and liabilities of the subsidiary, any non-controlling interests and the other components of equity related to the subsidiary. Any surplus or deficit arising on the loss of control is recognised in the Consolidated Statement of Profit and Loss. If the Company retains any interest in the previous subsidiary, then such interest is measured at fair value at the date that control is lost. Subsequently, it is accounted for as an equity accounted investee depending on the level of influence retained.

Joint ventures (equity accounted investees)

Joint arrangements are those arrangements over which the Company has joint control, established by contractual agreement and requiring unanimous consent for strategic financial and operating decisions. Investments in jointly controlled entities are accounted for using the equity method (equity accounted investees) and are initially recognised at cost. The carrying value of the Company's investment includes goodwill identified on acquisition, net of any accumulated impairment losses. The Company does not consolidate entities where the non-controlling interest ("NCI") holders have certain significant participating rights that provide for effective involvement in significant decisions in the ordinary course of business of such entities. Investments in such entities are accounted by the equity method of accounting. When the Company's share of losses exceeds its interest in an equity accounted investee, the carrying amount of that interest (including any long-term investments) is reduced to zero and the recognition of further losses is discontinued except to the extent that the Company has an obligation or has made payments on behalf of the investee.

Transactions eliminated on consolidation:

The financial statements of the subsidiaries and the joint ventures used for the purpose of consolidation are drawn upto the same reporting date as that of the Holding Company, i.e. 31st March 2022.

The Subsidiary Companies and Joint ventures considered in the consolidated financial statements are:

Name of the Company	Country of Incorporation	% of Ownership held as at 31 st March, 2022	% of Ownership held as at 31 st March, 2021
Subsidiaries:			
Nilkamal Eswaran Plastics Private Limited	Sri Lanka	96.28%	96.28%
Nilkamal Eswaran Marketing Private Limited	Sri Lanka	96.28%	96.28%
Nilkamal Crates and Bins FZE	Ajman, UAE,	100%	100%
Nilkamal Foundation	India	99%	99%
Nilkamal Storage System Private Limited	India	100%	100%
Joint Ventures:

"Non-controlling interest" represents the amount of equity attributable to Non-controlling shareholders at the date on which investment in the subsidiary is made and its share of movements in the equity since the date the parent subsidiary relationship comes into existence.

* These companies are private companies limited by shares formed under section 8 of the Companies Act, 2013. No dividend can be proposed and paid to the shareholder by these companies. In the event of winding up or dissolution of these companies, after the satisfaction of all its debts and liabilities, any property whatsoever shall be given or transferred to some other institution(s) having object similar to the objects of these companies, to be determined by the members of this company at or before the time of dissolution or in default thereof by the High Court. The carrying amount of the assets and liabilities included within the consolidated financial statements to which these restrictions apply is ₹ 230.84 lakhs (previous year ₹ 625.40 lakhs) and ₹ 0.18 lakhs (previous year ₹ 100.74 lakhs).

Functional and presentation currency

These consolidated financial statements are presented in Indian rupees in lakhs, which is the Holding Company's functional currency. All amounts have been rounded off to two decimal places to the nearest lakh, unless otherwise indicated.

The consolidated financial statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances.

Historical cost convention

The Consolidated financial statements have been prepared on a historical cost basis, except for the following:

- certain consolidated financial assets and liabilities (including derivative instrument) that are measured at fair value;
- defined benefit plans – plan assets measured at fair value

c) Use of Estimates and Judgements:

The preparation of consolidated financial statements in accordance with Ind AS requires use of estimates and assumptions for some items, which might have an effect on their recognition and measurement in the consolidated balance sheet and consolidated statement of profit and loss. The actual amounts realised may differ from these estimates.

Estimates and assumptions are required in particular for:

The preparation of financial statements in accordance with Ind AS requires use of estimates and assumptions for some items, which might have an effect on their recognition and measurement in the balance sheet and statement of profit and loss. The actual amounts realised may differ from these estimates.

Estimates and assumptions are required in particular for:

- **Determination of the estimated useful lives of Property, plant and equipment**

Useful lives of Property plant and equipment are based on the life prescribed in Schedule II of the Companies Act, 2013. In cases, where the useful lives are different

from that prescribed in Schedule II for plant and machinery and dies and moulds, they are based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers' warranties and maintenance support.

- **Recognition and measurement of defined benefit obligations**

The obligation arising from defined benefit plan is determined on the basis of actuarial assumptions. Key actuarial assumptions include discount rate, trends in salary escalation, actuarial rates and life expectancy. The discount rate is determined by reference to market yields at the end of the reporting period on government bonds. The period to maturity of the underlying bonds correspond to the probable maturity of the post-employment benefit obligations.

- **Recognition of deferred tax assets and liabilities**

Deferred tax assets and liabilities are recognised for the future tax consequences of temporary differences between the carrying values of assets and liabilities and their respective tax bases, and unutilised business loss and depreciation carry-forwards and tax credits. Deferred tax assets are recognised to the extent that it is probable that future taxable income will be available against which the deductible temporary differences, unused tax losses, depreciation carry-forwards and unused tax credits could be utilised.

- **Recognition and measurement of other provisions**

The recognition and measurement of other provisions are based on the assessment of the probability of an outflow of resources, and on past experience and circumstances known at the balance sheet date. The actual outflow of resources at a future date may therefore vary from the amount included in other provisions.

All financial assets / liabilities are required to be measured at fair value on initial recognition. In case of financial liabilities/assets which are required to subsequently be measured at amortised cost, interest is accrued using the effective interest method.

- **Segment reporting**

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker. The Group prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the consolidated financial statements of the Group as a whole.

• **Fair value of financial instruments**

Derivatives are carried at fair value. Derivatives includes foreign currency forward contracts and interest rate swaps. Fair value of foreign currency forward contracts are determined using the fair value reports provided by respective bankers. Fair value of interest rate swaps are determined with respect to current market rate of interest.

Measurement of fair values

The Group's accounting policies and disclosures require the measurement of fair values for financial instruments.

The Group has an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of a financial asset or a financial liability, the Group uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- **Level 1** : quoted prices (unadjusted) in active markets for identical assets or liabilities.
- **Level 2** : inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- **Level 3** : inputs for the asset or liability that are not based on observable market data (unobservable inputs).
- If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.
- The Group recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

d) **Standards issued but not yet effective:**

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 23, 2022, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2022, applicable from April 1st, 2022, as below:

- i. Ind AS 103 – Reference to Conceptual Framework - The amendments specify that to qualify for recognition as part of applying the acquisition method, the identifiable assets acquired and liabilities assumed must meet the definitions of assets and liabilities in the Conceptual Framework for Financial Reporting under Indian Accounting Standards (Conceptual Framework) issued by the Institute of Chartered Accountants of India at the acquisition date. These changes do not significantly change the requirements of Ind AS 103.
- ii. Ind AS 16 – Proceeds before intended use - The amendments mainly prohibit an entity from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, an entity will recognise such sales proceeds and related cost in profit or loss.
- iii. Ind AS 37 – Onerous Contracts - Costs of Fulfilling a Contract - The amendments specify that that the 'cost of fulfilling' a contract comprises the 'costs that relate directly to the contract'. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts.
- iv. Ind AS 109 – Annual Improvements to Ind AS (2021) - The amendment clarifies which fees an entity includes when it applies the '10 percent' test of Ind AS 109 in assessing whether to derecognise a financial liability.
- v. Ind AS 116 – Annual Improvements to Ind AS (2021) - The amendments remove the illustration of the reimbursement of leasehold improvements by the lessor in order to resolve any potential confusion regarding the treatment of lease incentives that might arise because of how lease incentives were described in that illustration.

The Company is assessing the impact of these changes and will accordingly incorporate the same in the financial statements for the year ending March 2023.

e) Property, plant and equipment:**i. Recognition and measurement**

Items of property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses.

The cost of an item of property, plant and equipment comprises:

- a) Its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates.
- b) Any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.
- c) The initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located, the obligation for which an entity incurs either when the item is acquired or as a consequence of having used the item during a particular period for purposes other than to produce inventories during that period.

Income and expenses related to the incidental operations, not necessary to bring the item to the location and condition necessary for it to be capable of operating in the manner intended by management, are recognised in consolidated profit or loss.

Items such as spare parts, stand-by equipments and servicing that meets the definition of property, plant and equipment are capitalised at cost and depreciated over the useful life. If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted and depreciated for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

Capital work in progress is stated at cost and includes the cost of the assets that are not ready for their intended use at the Balance Sheet date.

Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Group.

f) Depreciation

- Depreciation on property, plant and equipment is provided on the straight-line method over the useful lives of assets as prescribed under Part C of Schedule II of the Companies Act, 2013 except for plant and machinery and Dies and moulds which is based on technical evaluation. Management believes that these useful lives best represent the period over which management expects to use these assets. Hence the useful life for plant and machinery of 10 years and for Dies and Moulds of 6 years for continuous running is different from the useful life as prescribed under Part C of Schedule II of the Companies Act 2013;
- Useful life of property plant and equipment are reviewed at each balance sheet date and adjusted prospectively, if appropriate
- Cost of leasehold land is amortised over the period of lease;
- Depreciation on addition to assets or on sale /discardment of assets, is calculated pro rata from the date of such addition or upto the date of such sale/discardment, as the case may be;
- Assets like mobile phones, telephone instruments, etc. are fully depreciated in the year of purchase / acquisition;
- Individual assets except assets given on lease acquired for less than ₹ 15,000/- are depreciated entirely in the year of acquisition.

g) Intangible Fixed Assets

Intangible Fixed assets, which are acquired by the Group and have finite useful lives are measured at cost less accumulated amortisation and any accumulated impairment losses.

All other expenditure, including expenditure on internally generated goodwill and brands, is recognised in profit or loss as incurred.

h) Goodwill on Consolidation

Goodwill on acquisition of subsidiaries is not amortised but it is tested for impairment annually or more frequently if events or changes in circumstances indicate that the asset may be impaired, and is carried at cost less accumulated impairment losses. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

i) Amortisation

Software (Intangible assets) are amortised over their estimated useful lives on a straight-line basis but not exceeding the period of 36 months.

Useful life of Intangible assets are reviewed at each balance sheet date and adjusted prospectively, if appropriate

j) Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial instruments also include derivative contracts such as foreign currency foreign exchange forward contracts and, interest rate swaps and currency options; and embedded derivatives in the host contract.

Financial instruments also covers contracts to buy or sell a non-financial item that can be settled net in cash or another financial instrument, or by exchanging financial instruments, as if the contracts were financial instruments, with the exception of contracts that were entered into and continue to be held for the purpose of the receipt or delivery of a non-financial item in accordance with the entity's expected purchase, sale or usage requirements.

Derivatives are currently recognised at fair value on the date on which the derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period.

Cash Flow Hedges

The Group uses derivative financial instrument such as forward contracts and cross currency interest rate swaps to hedge its foreign currency risks and interest rate risks. Derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to the Statement of Profit and Loss, except for the effective portion of cash flow hedge, which is recognised in Other Comprehensive Income and accumulated in Cash Flow Hedge Reserve included in the Reserves and Surplus while any ineffective portion is recognised immediately in the Statement of Profit and Loss.

For the purpose of hedge accounting, hedges are classified as:

Fair value hedges when hedging the exposure to changes in the fair value of a recognised asset or liability.

Cash flow hedges when hedging exposure to variability in cash flows that is either attributable to particular risk associated with a recognised asset or liability.

At the inception of a hedge relationship, the Group formally designates and documents the hedge relationship to which the Group wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge. The documentation includes identification of the hedging instrument, the hedged item or transaction, the nature of the risk being hedged and how the entity will assess the effectiveness of changes in the hedging instrument's fair value in offsetting the exposure to changes in the hedged item's fair value or cash flows attributable to the hedged risk. Such hedges are expected to be highly effective in achieving offsetting changes in fair value or cash flows and are assessed on an ongoing basis to determine that they actually have been highly effective throughout the financial reporting periods for which they were designated.

Hedge accounting is discontinued from the last testing date when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. Cumulative gain or loss on such hedging instrument recognised in Cash Flow Hedge Reserve is retained there until the forecasted transaction occurs. If a hedged transaction is no longer expected to occur, the net cumulative gain or loss recognised in Cash Flow Hedge Reserve is transferred to consolidated statement of Profit and Loss for the year.

Financial assets

Classification

The Group shall classify financial assets as subsequently measured at amortised cost, fair value through other comprehensive income or fair value through profit or loss on the basis of its business model for managing the financial assets and the contractual cash flow characteristics of the financial asset.

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables. For more information on receivables, (Refer note 47).

Equity investments

All equity investments in scope of Ind-AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Group decides to classify the same either as at FVOCI or FVTPL. The Group makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Group decides to classify an equity instrument as FVOCI, then all fair value changes on the instrument, excluding dividends, are recognised in the OCI. There is no recycling of the amounts from OCI to profit and loss, even on sale of investment. However, the Group may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the profit and loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a Group of similar financial assets) is primarily derecognised (i.e. removed from the Group's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Impairment of financial assets

In accordance with Ind-AS 109, the Group applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- a) Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, and bank balance.

- b) Trade receivables - The application of simplified approach does not require the Group to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. Trade receivables are tested for impairment on a specific basis after considering the sanctioned credit limits, security like letters of credit, security deposit collected etc. and expectations about future cash flows.

• **Financial liabilities**

Classification

The Group classifies all financial liabilities as subsequently measured at amortised cost, except for financial liabilities at fair value through profit or loss. Such liabilities, including derivatives that are liabilities, shall be subsequently measured at fair value.

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable and incremental transaction cost.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

The Group's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and derivative financial instruments.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the consolidated statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

k) **Valuation of Inventories:**

Inventories of Raw Materials, Packing Materials, Stores and Spares, Work-in Progress, Traded goods and Finished goods are valued 'at cost and net realisable value' whichever is lower. Cost comprises all cost of purchase, appropriate direct production overheads and other costs incurred in bringing the inventories to their present location and condition. Cost formulae used is 'Weighted Average Cost'. Due allowance is estimated and made for defective and obsolete items, wherever necessary, based on the past experience of the Group. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale. Raw materials and other supplies held for use in the production of inventories are not written down below cost except in case where material prices have declined and it is estimated that the cost of the finished product will exceed its net realisable value.

l) **Employee Benefits:**

All employee benefits payable within twelve months of rendering the service are recognised in the period in which the employee renders the related service.

Contribution to Defined Contribution Plans such as Provident Fund, Employees' State Insurance Corporation, etc., are charged to the consolidated Statement of Profit and Loss as incurred.

Defined Benefit Plans – The present value of the obligation under such plans, is determined based on an actuarial valuation by an independent actuary at the end of each year, using the Projected Unit Credit Method. In the case of gratuity, which is funded, the fair value of the plan assets is reduced from the gross obligation under the defined benefit plans, to recognise the obligation on net basis.

Remeasurement of net defined benefit liability, which comprises actuarial gains and losses and the return on plan assets (excluding interest) and the effect of the asset ceiling (if any excluding interest), are recognised immediately in other comprehensive income.

Other Long Term Employee Benefits**Compensated Absences**

Accumulated compensated absences, which are expected to be availed or encashed within 12 months from the end of the year end are treated as short term employee benefits. The obligation towards the same is measured at the expected cost of accumulating compensated absences as the additional amount expected to be paid as a result of the unused entitlement as at the year end. Accumulated compensated absences, which are expected to be availed or encashed beyond 12 months from the end of the year end are treated as other long term employee benefits. The Group's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. Actuarial losses/ gains are recognised in the consolidated Statement of Profit and Loss in the year in which they arise.

m) Foreign Exchange Transactions:

Transactions in foreign currencies are translated into the respective functional currencies of the Group at the exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Foreign currency differences are generally recognised in profit or loss. Non-monetary items that are measured based on historical cost in a foreign currency are not translated using the exchange rate at the date of the transactions.

Translation of financial statements of foreign entities

On consolidation, the assets and liabilities of foreign operations are translated into ₹ (Indian Rupees) at the exchange rate prevailing at the reporting date and their statements of profit and loss are translated at exchange rates prevailing at the dates of the transactions. For practical reasons, the group uses monthly closing rate to translate income and expense items, if the average rate approximates the exchange rates at the dates of the transactions. The exchange differences arising on translation for consolidation are recognised in Foreign Currency Translation Reserve. On disposal of a foreign operation, the component of Foreign Currency Translation Reserve relating to that particular foreign operation is reclassified to Consolidated Statement of Profit and Loss.

n) Borrowing Costs:

Borrowing costs that are directly attributable to the acquisition or construction of an asset that necessarily takes a substantial period of time to get ready for its intended use are capitalised as part of the cost of that asset till the date it is ready for its intended use or sale.

Other borrowing costs are recognised as an expense in the period in which they are incurred.

o) Revenue Recognition:

The Company derives revenues primarily from sale of manufactured goods, traded goods and related services.

Revenue is recognised on satisfaction of performance obligation upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Company expects to receive in exchange for those products or services. The performance obligations in our contracts are fulfilled at the time of dispatch, delivery or upon formal customer acceptance depending on customer terms.

Revenue is measured based on transaction price which is fair value of the consideration received or receivable, after deduction of any discounts, sales incentives / schemes and any taxes or duties collected on behalf of the government such as goods and services tax, etc. Accumulated experience is used to estimate the provision for such discounts and sales incentives / schemes. Revenue is only recognised to the extent that it is highly probable a significant reversal will not occur.

Dividend income is recognised in statement of profit and loss only when the right to receive payment is established.

Export incentives receivable under various schemes are accounted on accrual basis.

Interest income is recognised using the effective interest rate method.

p) Leases

At the inception it is assessed, whether a contract is a lease or contains a lease. A contract is a lease or contains a lease if it conveys the right to control the use of an identified asset, for a period of time, in exchange for consideration.

To assess whether a contract conveys the right to control the use of an identified asset, Company assesses whether the contract involves the use of an identified asset. Use may be specified explicitly or implicitly.

- Use should be physically distinct or represent substantially all of the capacity of a physically distinct asset.
- If the supplier has a substantive substitution right, then the asset is not identified.
- Company has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use
- Company has the right to direct the use of the asset.
- In cases where the usage of the asset is predetermined the right to direct the use of the asset is determined when Company has the right to use the asset or Company designed the asset in a way that predetermines how and for what purpose it will be used.

At the commencement or modification of a contract, that contains a lease component, Company allocates the consideration in the contract, to each lease component, on the basis of its relative standalone prices. For leases of property, it is elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

As a Lessee:

Company recognises a right-of-use asset and a lease liability at the lease commencement date.

Right-of-use asset (ROU):

The right-of-use asset is initially measured at cost. Cost comprises of the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, any initial direct costs incurred by the lessee, an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located less any lease incentives received.

After the commencement date, a lessee shall measure the right-of-use asset applying cost model, which is cost less any accumulated depreciation and any accumulated impairment losses and also adjusted for certain re-measurements of the lease liability.

Right-of-use asset is depreciated using straight-line method from the commencement date to the end of the lease term. If the lease transfers the ownership of the underlying asset to the Company at the end of the lease term or the cost of the right-of-use asset reflects Company will exercise the purchase option, ROU will be depreciated over the useful life of the underlying asset, which is determined based on the same basis as property, plant and equipment.

Lease liability:

Lease liability is initially measured at the present value of lease payments that are not paid at the commencement date. Discounting is done using the implicit interest rate in the lease, if that rate cannot be readily determined, then using Company's incremental borrowing rate. Incremental borrowing rate is determined based on entity's borrowing rate adjusted for terms of the lease and type of the asset leased.

Lease payments included in the measurement of the lease liability comprises of fixed payments (including in substance fixed payments), variable lease payments that depends on an index or a rate, initially measured using the index or rate at the commencement date, amount expected to be payable under a residual value guarantee, the exercise price under a purchase option that the Company is reasonably certain to exercise, lease payments in an optional renewal period if the Company is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Company is reasonably certain not to terminate early.

Lease liability is measured at amortised cost using the effective interest method. Lease liability is re-measured when there is a change in the lease term, a change in its assessment of whether it will exercise a purchase, extension or termination option or a revised in-substance fixed lease payment, a change in the amounts expected to be payable under a residual value guarantee and a change in future lease payments arising from change in an index or rate.

When the lease liability is re-measured corresponding adjustment is made to the carrying amount of the right-of-use asset. If the carrying amount of the right-of-use asset has been reduced to zero it will be recorded in statement of profit and loss.

Right-of-use asset is presented under "Property Plant and Equipment" and lease liabilities are presented under "Financial liabilities" in the balance sheet.

Company has elected not to recognise right-of-use assets and lease liabilities for short term leases. The lease payments associated with these leases are recognised as an expense on a straight-line basis over the lease term.

Lessor

At the commencement or modification of a contract, that contains a lease component, Company allocates the consideration in the contract, to each lease component, on the basis of its relative standalone prices.

At the inception of the lease, it is determined whether it is a finance lease or an operating lease. If the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset, then it is a financial lease, otherwise it is an operating lease.

If the lease arrangement contains lease and non-lease components, then the consideration in the contract is allocated using the principles of IND AS 115. The Company tests for the impairment losses at the year end. Payment received under operating lease is recognised as income on straight line basis, over the lease term.

The accounting policies applicable to the Company as a lessor, in the comparative period, were not different from IND AS 116.

q) Business Combination:

The Group applies the acquisition method in accounting for business combinations. The consideration transferred by the Group to obtain control of a business is calculated as the sum of the fair values of assets transferred and liabilities assumed as at the acquisition date i.e. date on which it obtains control of the acquire, which includes the fair value of any asset or liability arising from a contingent consideration arrangement. Acquisition-related costs are recognised in the statement of profit and loss as incurred, except to the extent related to the issue of debt or equity securities.

Where the consideration transferred exceeds the fair value of the net assets acquired and liabilities assumed, the excess is recorded as goodwill. Alternatively, in case of bargain purchase wherein the consideration transferred is lower than the fair value of the net identifiable assets and liabilities assumed, the difference as a gain in other comprehensive income and accumulate the gain in equity as capital reserve

Identifiable assets acquired and liabilities assumed in a business combination are measured initially at their fair values on acquisition-date.

Intangible Assets acquired in a Business Combination and recognised separately from Goodwill are initially recognised at their fair value at the acquisition date (which is regarded as their cost).

Subsequent to initial recognition, intangible assets acquired in a Business Combination are reported at cost less accumulated amortisation and accumulated impairment losses, on the same basis as intangible assets that are acquired separately.

r) Impairment of non-financial assets

Goodwill and intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired.

The carrying values of assets/cash generating units at each balance sheet date are reviewed for impairment if any indication of impairment exists. If the carrying amount of the assets exceed the estimated recoverable amount, an impairment is recognised for such excess amount.

The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor.

When there is indication that an impairment loss recognised for an asset (other than a revalued asset) in earlier accounting periods which no longer exists or may have decreased, such reversal of impairment loss is recognised in the consolidated Statement of Profit and Loss, to the extent the amount was previously charged to the consolidated Statement of Profit and Loss. In case of revalued assets, such reversal is not recognised. An impairment loss in respect of goodwill is not subsequently reversed.

s) Cash and cash equivalents

Cash and cash equivalent in the consolidated balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the consolidated statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Group's cash management.

t) **Taxation**

Income tax expense comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination, or items recognised directly in equity or in OCI.

i. **Current tax**

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. It is measured using tax rates enacted or substantively enacted at the reporting date. Current tax also includes any tax arising from dividends.

Current tax assets and liabilities are offset only if, the Group:

- a) has a legally enforceable right to set off the recognised amounts; and
- b) intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Uncertain Tax position:

Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate. The provision is estimated based on one of two methods, the expected value method (the sum of the probability weighted amounts in a range of possible outcomes) or the single most likely amount method, depending on which is expected to better predict the resolution of the uncertainty.

ii. **Deferred tax**

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for:

- temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss;
- temporary differences related to investments in subsidiaries and associates to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves.

Unrecognised deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Group expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset only if:

- a) the entity has a legally enforceable right to set off current tax assets against current tax liabilities; and
- b) the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on the same taxable entity.

Deferred tax asset / liabilities in respect of on temporary differences which originate and reverse during the tax holiday period are not recognised. Deferred tax assets / liabilities in respect of temporary differences that originate during the tax holiday period but reverse after the tax holiday period are recognised.

u) **Government Grants:**

Grants received from the government are recognised at their fair value where there is reasonable assurance that the grant will be received and the Group will comply with the conditions.

Government grants related to income are deferred and recognised in the profit or loss over the period necessary to match them with the costs that they are intended to compensate and netted off with the expense in the consolidated statement of profit and loss.

Government grants related to purchase of property plant and equipment are recognised by deducting the grant from the carrying amount of the property plant and equipment in which case the grant is recognised in profit or loss as a reduction of depreciation charged.

v) Provisions, Contingent Assets and Contingent Liabilities:

A provision is recognised when the Group has a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, in respect of which a reliable estimate can be made. These are reviewed at each balance sheet date and adjusted to reflect the current management estimates.

If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows specific to the liability. The unwinding of the discount is recognised as finance cost.

Contingent Liabilities are disclosed in respect of possible obligations that arise from past events, but their existence is confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity. Contingent Assets are not recognised till the realisation of the income is virtually certain. However, the same are disclosed in the financial statements where an inflow of economic benefits is probable.

w) Earnings per share

Basic earnings per share is computed by dividing the net profit for the period attributable to the equity shareholders of the Company by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

37. Contingent Liabilities and commitments to the extent not provided for in respect of:

a) Contingent liabilities :-

Forward contracts	The fair value is determined using forward exchange rates at the reporting date.
Interest rate swaps	Present value of the estimated future cash flows based on observable yield curves.

C. Financial risk management

The Group has exposure to the following risks arising from financial instruments:

- Credit risk ;
- Liquidity risk ; and
- Market risk

i. Risk management framework

The Holding Company's Board of Directors has overall responsibility for the establishment and oversight of the Group's Risk Management Policy framework. The Board of Directors have adopted an Enterprise Risk Management Policy framed by the Group, which identifies the risk and lays down the risk minimisation procedures. The Movement reviews the Risk Management Policies and systems on a regular basis to reflect changes in market conditions and the Group's activities, and the same is reported to the Board of Directors periodically. Further, the Group, in order to deal with the future risks, has in place various methods / processes which have been imbibed in its organisational structure and proper internal controls are in place to keep a check on lapses, and the same are been modified in accordance with the regular requirements.

The audit committee oversees how management monitors compliance with the Group's Risk Management Policies and procedures, and reviews the adequacy of the Risk Management framework in relation to the risks faced by the Group. The audit committee is assisted in its oversight role by internal auditors.

ii. Credit risk

Credit risk is the risk of financial loss to the group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the group's receivables from customers and loans and advances.

The carrying amount of following financial assets represents the maximum credit exposure:

Trade receivables and loans and advances.

The group's exposure to credit risk is influenced mainly by the individual characteristics of each customer in which it operates. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the group grants credit terms in the normal course of business.

The Risk Management Committee has established a credit policy under which each new customer is analysed individually for creditworthiness before the group's standard payment and delivery terms and conditions are offered. Further for domestic sales, the group segments the customers into Distributors and Others for credit monitoring.

The group maintains security deposits for sales made to its distributor For other trade receivables, the company individually monitors the sanctioned credit limits as against the outstanding balances. Accordingly, the group makes specific provisions against such trade receivables wherever required and monitors the same at periodic intervals.

The group monitors each loans and advances given and makes any specific provision wherever required.

The group establishes an allowance for impairment that represents its estimate of expected losses in respect of trade receivables and loans and advances.

Impairment

At 31st March, 2022, the ageing of trade receivables was as follows

	31 March, 2022	31 March, 2021
Neither past due nor impaired	13,810.45	13,869.75
Past due 1–90 days	13,427.49	12,704.66

Cash and cash equivalents:

The Group held Cash and Cash equivalents of ₹ 6,838.22 lakhs (Previous year: ₹ 9,052.94 lakhs) as on 31st March 2022. The cash and cash equivalents are held with bank counterparties with good credit ratings.

Derivatives:

The derivatives are entered into with bank. Counterparties with good credit rating.

Loans and Advances:

The Group held loan and advances of ₹ 4,153.93 lakhs as on 31st March 2022 (Previous year: ₹ 5,204.94 lakhs). The loans and advances are in nature of rent deposit paid to landlords, bank deposits with maturity more than Twelve months and others, the same are fully recoverable.

iii. Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

As of 31 March, 2022 and 31 March, 2021 the Group had unutilized credit limits from banks of ₹ 23,109.59 lakhs and ₹ 16,368.19 lakhs respectively.

Maturity profile of financial liabilities

The disclosure shows net cash flow amounts for derivatives that are net cash-settled and gross cash inflow and outflow amounts for derivatives that have simultaneous gross cash settlement.

iv. Market risk

Market risk is the risk that changes in market prices – such as foreign exchange rates, interest rates and equity prices – will affect the Group's income or the value of its holdings of financial instruments. Market risk is attributable to all market risk sensitive financial instruments including foreign currency receivables and payables and long term debt. We are exposed to market risk primarily related to foreign exchange rate risk, interest rate risk and the market value of our investments. Thus, our exposure to market risk is a function of investing and borrowing activities and revenue generating and operating activities in foreign currency. The objective of market risk management is to avoid excessive exposure in our foreign currency revenues and costs.

Currency risk

The Group is exposed to currency risk on account of its borrowings and other payables in foreign currency. The functional currency of the Group is Indian Rupee (₹). The Group uses forward exchange contracts to hedge its currency risk, most with a maturity of less than one year from the reporting date.

Exposure to currency risk (Exposure in different currencies converted to functional currency i.e.

INR)

The currency profile of financial assets and financial liabilities as at 31st March, 2022 and 31st March, 2021 are as below:

GBP1	99.48	100.71

Sensitivity analysis

A reasonably possible strengthening (weakening) of the Foreign Currency against the Indian Rupee (₹) at 31st March would have affected the measurement of financial instruments denominated in foreign currencies and affected equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecast sales and purchases.

(₹ in lakhs)

	31st March, 2022		31st March, 2021	
	Profit or (loss)		Profit or (loss)	
Effect in INR	Strengthening	Weakening	Strengthening	Weakening
USD - 3% Movement	55.70	(55.70)	37.68	(37.68)
EUR - 3% Movement	7.95	(7.95)	(1.43)	1.43
GBP - 3% Movement	0.97	(0.97)	(0.11)	0.11
CNY - 3% Movement	-	-	(0.96)	0.96
	64.62	(64.62)	35.17	(35.17)

Interest rate risk:

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing investments because of fluctuations in the interest rates. Cash flow interest rate risk is the risk that the future cash flows of floating interest bearing investments will fluctuate because of fluctuations in the interest rates.

Exposure to interest rate risk

Group's interest rate risk arises from borrowings. The interest rate profile of the Group's interest-bearing financial instruments as reported to the management of the Group is as follows:

(₹ in lakhs)

	31st March, 2022	31st March, 2021
Borrowings		
Fixed rate borrowings	13,458.76	-
Variable rate borrowings	4,401.10	4,854.83
Less: Interest rate swap	(2,967.61)	(4,636.57)
Total	14,892.25	218.26

Fair value sensitivity analysis for fixed-rate instruments

The Group does not account for any fixed-rate financial assets or financial liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

The Group manages its cash flow interest rate risk by using floating-to-fixed interest rate swaps. Under these swaps, the Group agrees with other parties to exchange, the difference between fixed contract rates and floating rates interest amounts calculated by reference to the agreed notional principal amounts

Cash flow sensitivity analysis for variable-rate instruments

A reasonably possible change of 100 basis points in interest rates at the reporting date would have increased (decreased) profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency exchange rates, remain constant.

(₹ in lakhs)

	Profit or (loss)	
31st March, 2022	100 bp increase	100 bp decrease
Variable-rate instruments	(44.01)	44.01
Interest rate swaps	29.68	(29.68)
Cash flow sensitivity (net)	(14.33)	14.33
31st March, 2021		
Variable-rate instruments	(48.55)	48.55
Interest rate swaps	46.37	(46.37)
Cash flow sensitivity (net)	(2.18)	2.18

The risk estimates provided assume a parallel shift of 100 basis points interest rate across all yield curves. This calculation also assumes that the change occurs at the balance sheet date and has been calculated based on risk exposures outstanding as at that date. The period end balances are not necessarily representative of the average debt outstanding during the period.

48 Capital Management

For the purpose of the Group's capital management, capital includes issued capital and other equity reserves. The primary objective of the Group's Capital Management is to maximise shareholders value. The Group manages its capital structure and makes adjustments in the light of changes in economic environment and the requirements of the financial covenants.

The Group monitors capital using debt to equity ratio.

49 Employee Benefits

The Group contributes to the following post-employment defined benefit plans in India.

(i) Defined Contribution Plans:

The contributions to the Provident Fund and Family Pension Fund of certain employees are made to a Government administered Provident Fund and there are no further obligations beyond making such contribution.

The Group recognised ₹ 963.95 lakhs (Previous year: ₹ 909.10 lakhs) Provident fund contributions in the Statement of Profit and Loss.

The contributions payable to these plans by the Group are at rates specified in the rules of the schemes.

(ii) Defined Benefit Plan:**A. Gratuity**

The Group participates in the Employees Gratuity scheme, a funded defined benefit plan for qualifying employees. Gratuity is payable to all eligible employees on death or on separation / termination in terms of the provisions of the respective applicable Gratuity rules.

The most recent actuarial valuation of plan assets and the present value of the defined benefit obligation for gratuity were carried out as at 31st March, 2021. The present value of the defined benefit obligations and the related current service cost and past service cost, were measured using the Projected Unit Credit Method.

C. Plan assets

Plan assets comprise the following:

(₹ in lakhs)

	31 March 2022	31 March 2021
Fund managed by Insurance Group	2,509.14	2,391.59

D. Defined benefit obligations**i. Actuarial assumptions**

The following were the principal actuarial assumptions at the reporting date (expressed as weighted averages).

	31 March 2022	31 March 2021
Discount rate	6.80% p.a.- 15.25% p.a.	6.50% p.a.- 7% p.a.
Expected Rate of Return on Plan Assets	6.80%p.a.	6.50%p.a.
Salary escalation rate	6.00%p.a.- 12.00% p.a.	6.00%p.a.- 6.80% p.a.
Employee Turnover	12.00%p.a.- 1.00% p.a.	11.00%p.a.- 1.00% p.a.
Mortality rate	Indian Assured Lives Mortality (2012-14) Ult.	Indian Assured Lives Mortality (2012-14) Ult.

Assumptions regarding future mortality have been based on published statistics and mortality tables

ii. Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below.

	31 March, 2022		31 March, 2021	
	Increase	Decrease	Increase	Decrease
Discount rate (1% movement)	1,961.41	2,359.11	1,884.83	2,221.14
Future salary growth (1% movement)	2,358.67	1,958.47	2,220.67	1,835.81
Rate of employee turnover (1% movement)	2,156.12	2,133.28	2,025.64	2,004.40

The sensitivity analysis above have been determined based on a method that extrapolates the impact on defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting period.

Expected future cash flows

The expected future cash flows in respect of gratuity as at March 31, 2022 were as follows:

Expected contribution

The expected contributions for defined benefit plan for the next financial year will be in line with the contribution for the year ended 31 sat March 2022 ₹ 278.58 lakhs (Previous Year ₹ 245.93 lakhs).

Expected future benefit payments

(₹ in lakhs)

March 31, 2024	112.12
March 31, 2025	134.72
March 31, 2026	142.51
Thereafter	1,771.90

Compensated Absences:

The Compensated Absences is payable to all eligible employees for each day of accumulated leave on death or on resignation. Compensated Absences debited to Statement of Profit and Loss during the year amounts to ₹ 262.46 lakhs (Previous year ₹ 115.89 lakhs) and is included in Note 30 - 'Employee benefits expenses'. Accumulated non-current provision for leave encashment aggregates ₹ 499.33 lakhs (Previous year ₹ 443.49 lakhs) and current provision aggregates ₹ 463.94 lakhs (Previous year ₹ 462.23 lakhs).

50. Hedge accounting

The Group's risk management policy is to hedge its estimated foreign currency exposure in respect of highly probable forecast purchases and foreign currency borrowings. The Holding Company uses forward exchange contracts to hedge its currency risk and cross currency interest rate swap to hedge its interest rate and currency risk related to foreign currency borrowings. Such contracts are generally designated as cash flow hedges.

The Holding Company determines the existence of an economic relationship between the hedging instrument and hedged item based on the currency, amount and timing of their respective cash flows. The Company assesses whether the derivative designated in each hedging relationship is expected to be and has been effective in offsetting changes in the cash flows of the hedged item using the hypothetical derivative method.
